

Honorable Members
Board of Supervisors
City and County of San Francisco
1 Dr. Carlton B. Goodlett Place, Room 244
San Francisco, California 94102

Statement of the Results
City and County of San Francisco
Consolidated Special Municipal Election – February 15, 2022

I, John Arntz, Director of Elections, certify that I have canvassed the ballots cast in the Consolidated Special Municipal Election held on Tuesday, February 15, 2022, within the City and County of San Francisco, in the manner required by Division 15 of the California Elections Code.

I certify that I began the canvass immediately upon the close of the polls on February 15, 2022, and, as a result of the tabulation of all votes recorded, present a complete record entitled "Statement of the Results of the Consolidated Special Municipal Election – February 15, 2022." I also declare that the number of ballots cast in said election was 179,981, which signifies that 36.01% of San Francisco's 499,771 registered voters voted in this election.

In accordance with California Elections Code section 15400, I certify that the total number of votes cast for each candidate and ballot measure in this Statement of the Results and the precinct detail of all votes cast appears in the Statement of the Vote, which is posted on the Department of Elections' website at sfelections.org/feb2022results, and is incorporated by reference to this Statement of the Results.

This Statement of the Results includes tables that present summarized totals of votes cast. The tables are organized in the following manner:

1. State Assembly District 17
2. Local Ballot Measures: three recall questions for Board of Education Members, San Francisco Unified School District
3. Assessor-Recorder

For this election, all voters received a one-card ballot. Voters living in State Assembly District 17 received ballots with all of the contests and measures listed above, while voters registered outside of the District received ballots that included the three local measures and the Assessor-Recorder contest.

Although this Statement of the Results includes the contest for United States Representative, District 13, the boundary that places this district within San Francisco extends across San Francisco Bay and crosses the extreme southwest corner of Alameda Island. Other than this uninhabited corner, the district lies entirely within Alameda County. This is why the table showing results for this contest indicates 0 votes and 0% turnout.

SHA-512 Cryptographic Hash Algorithm

The Department of Elections applied a SHA-512 cryptographic function to reports associated with this election to establish the integrity of the results in a verifiable manner. Attachment 2 provides information regarding the SHA-512 hash values for all electronic files associated with the final, certified results reports.

Voting System and Election Transparency

The City's voting system allows for increased election transparency through the posting of images of voted ballots, equipment transaction logs, and other election reports, all of which will be posted with the final election results on the Department's website, sfelections.org.

Voted ballot images. The City's voting system captures images of each voted ballot cast in an election. This creates a visual history of how ballots were marked. After each election, the Department posts the ballot images on its website, allowing members of the public to view each voted ballot cast in the City. Prior to posting the ballot images, the Department reviews the images and redacts identifying information that voters may have placed on ballot cards.

AuditMark. In addition to the voting system capturing images of voted ballot cards, the system also adds an explanation at the bottom of each ballot image indicating how the voting equipment interpreted and tallied each vote mark. These explanations, or AuditMarks, provide the public with information on how the voting system operates in relation to the recording and reporting of every vote cast in this election. This means that for every oval with a mark inside the voting target, even for partial marks, the voting system adds an explanation to the images of voted ballots of how the system understood and registered the markings within each oval.

Ballot Audit and Review. The Department will post an application that allows the public to sort the ballot images according to precinct, contest, and district. The City is the first jurisdiction in the country to utilize this application, known as "Ballot Audit and Review."

Cast Vote Record. The Department posted a "Cast Vote Record" that lists each vote recorded on each ballot card associated with all contests and propositions. The data provided in the Cast Vote Record is captured from the ballots as the ballots are scanned by the voting equipment and before vote tabulation occurs, allowing members of the public to tabulate votes from specific precincts, districts, etc. and compare against the official election results.

Attachments

Attachment 1 provides tables that list the votes cast.

Attachment 2 is the list of SHA-512 hashes associated with each final election results report and machine audit logs.

Attachment 3 is the report from the manual tallies that the Department conducted on randomly selected polling place, vote-by-mail, and provisional ballots to confirm that the voting equipment operated properly, and accurately counted and reported election results.

In witness whereof, I hereby affix my hand and seal this 23rd day of February, 2022.

John Arntz, Director of Elections

Statement of the Results

NOTE: The counts for all overvotes (which occur when voters mark more than the allowed number of candidates, or, mark both "yes" and "no" for ballot measures) and undervotes (which occur when voters mark fewer than the allowed number of candidates, or, leave blank the voting targets for both "yes" and "no") are included, although neither overvotes nor undervotes represent valid votes cast and are not added to the tallies determining total votes for a candidate or whether a measure passes.

1. VOTER-NOMINATED OFFICE

(Results represent votes cast in San Francisco only)

I hereby certify the results for the following **VOTER-NOMINATED OFFICE:**

MEMBER OF THE STATE ASSEMBLY, DISTRICT 17*

Candidates	Vote Totals	% of Votes
→ DAVID CAMPOS	33,448	35.67%
→ MATT HANEY	34,174	36.44%
BILAL MAHMOOD	20,895	22.28%
THEA SELBY	5,261	5.61%
Total Votes	93,778	
Undervotes	6,346	
Overvotes	416	
Total Ballots Cast	100,540	

* Since no candidate obtained a majority of votes cast in this voter-nominated contest, a special general election will occur on April 19, 2022. The ballot for this special election will list the names of the two candidates who received the most votes in the February 15, 2022, election.

2. CITY AND COUNTY PROPOSITIONS

(All measures required 50%+1 affirmative votes to pass)

I hereby certify the results for the following **CITY AND COUNTY PROPOSITIONS**:

PROPOSITION A - "Shall Alison Collins be recalled (removed) from the School Board for the San Francisco Unified School District?"

	Vote Totals	% of Votes		
→	YES	134,871	76.28%	Undervotes
	NO	41,928	23.72%	Overvotes
				3,038
				144

PROPOSITION B - "Shall Gabriela López be recalled (removed) from the School Board for the San Francisco Unified School District?"

	Vote Totals	% of Votes		
→	YES	127,022	72.06%	Undervotes
	NO	49,257	27.94%	Overvotes
				3,565
				137

PROPOSITION C - "Shall Faauga Moliga be recalled (removed) from the School Board for the San Francisco Unified School District?"

	Vote Totals	% of Votes		
→	YES	121,197	68.87%	Undervotes
	NO	54,785	31.13%	Overvotes
				3,971
				28

3. LOCAL OFFICES

I certify the results for the following **LOCAL OFFICE**:

For the ranked-choice voting contest Assessor-Recorder, the following table provides "Round 0" totals for the contest, which represent how voters marked their ballots before the application of the ranked-choice voting method. The table also lists vote totals from "Round 1," which represents the number of first-choice selections after the advancement of later selections that occurs when voters leave the first-choice selection blank or include names of people who are not official, qualified write-in candidates.

ASSESSOR-RECORDER

Candidates	Round 0		Round 1	
	Votes	%	Votes	%
→ JOAQUÍN TORRES	117,336	99.91%	124,486	99.91%
MICHAEL PETRELIS*	109	0.09%	111	0.09%
Total Votes	117,445		124,597	
Undervotes	62,293		55,141	
Exhausted	-		-	
Exhausted by Overvotes	1		1	
Total Ballots Cast	179,739		179,739	

*Qualified Write-In Candidate

**List of SHA-512 Hash Values for Certified Results Reports
Statement of the Results
Consolidated Special Municipal Election, February 15, 2022**

This list represents the various certified results reports the Department of Elections issued for the February 15, 2022, Consolidated Special Municipal Election. The file names for each report are listed numerically, and underneath each file name is the SHA-512 cryptographic hash value applicable to each file. All reports are posted on the Department's website: www.sfelections.org/results

1. "Summary – PDF," lists a summary of votes cast by contest, using a PDF format.

February 23, 2022

California Secretary of State
1500 11th Street, 5th Floor
Sacramento, CA 95814

February 15, 2022, Consolidated Special Municipal Election Results of 1% Post-Election Manual Tallies

Pursuant to state elections law, the San Francisco Department of Elections (Department) is required to conduct a manual tally of all ballots cast in 1% of San Francisco's polling places and 1% of the vote-by-mail ballots cast, and may also manually tally 1% of provisional ballots cast, as part of the Official Canvass of the election. The Department compares the results of the manual tallies to the results reports generated by the voting equipment used to tabulate ballot cards. The purpose of the manual tallies is to verify the accuracy of the voting equipment used in the election. Upon completion of the 1% manual tallies, the Department prepares a report on the results of the manual tallies and includes the report in the certification of the Official Canvass for the election.

The following is a report on the results of the manual tallies of 1% of the polling place, vote-by-mail, and provisional ballots cast in the February 15, 2022, Consolidated Special Municipal Election.

Random Selection of Precincts

On February 20, 2022, the Department conducted a random selection of precincts and batches for the manual tallies in accordance with California Elections Code section 15360.

Five days prior to selecting the precincts and batches for the manual tallies, the Department issued a press release and posted a public notice on its website, sfelections.org, and outside its office, announcing the date, time, and place of the random selection of precincts and batches. Additionally, the Department webcast the random selection process and posted the recording on its website.

For the February 15 election, the Department was required to conduct a manual tally of ballots cast in a minimum of four precincts, to represent 1% of San Francisco's 314 polling places included in the election, and 1% of all vote-by-mail and, optionally, provisional ballots. State elections law also requires a manual tally of votes cast to be conducted on all contests present in the election.

The random selection was divided into three categories. The first category was for selecting four precincts for ballots cast at the polling places. The second category was for selecting five batches (or boxes) of Vote-By-Mail (VBM) ballots representing 1% of all VBM ballots counted. The third category was for selecting one batch (or box) for the Provisional (PV) ballots. Using three 10-sided dice, the Department randomly selected the precincts and batches to be tallied in full. All the

contests in the election were covered in all the drawn precincts and batches. For a list of randomly selected precincts and batches contests tallied in each precinct, see Part I below.

Conducting the 1% Manual Tallies

The 1% manual tallies of randomly selected precincts and batches began on Tuesday, February 22, 2022, and was completed on the same day. The manual tallies occurred in the Department's warehouse on Pier 31, which is located along The Embarcadero. The manual tallies were open to public observation both in person and via live streaming on the Department's website at sfelections.org/live.

For each selected precinct and batch, Department personnel manually tallied votes cast on the ballots, including polling place ballots cast using the Ballot Scanning Machines (BSM), and accepted vote-by-mail and provisional ballots, including those issued at the Department's City Hall Voting Center. Vote-by-mail and provisional ballots, and paper duplications of ballots through the remake process using the Ballot Marking Device are tabulated using the ImageCast Central (ICC) machines. The manual counts were then compared against the results reports issued by the voting system. If there were any discrepancies between the two tallies, the Department sought resolution or explanations for these discrepancies.

Department personnel worked in four, four-person teams to manually tally votes on polling place ballots, vote-by-mail, and provisional ballots. Each team was assigned one precinct or one batch to count at a time. After all the votes for a contest had been counted, a supervisor verified whether the manual count matched the machine count. If all the vote counts matched, the team proceeded to the next contest until all the contests on the card had been counted.

Results of the 1% Manual Tallies

After a manual tally, Department personnel seek to resolve any potential discrepancies, or variances, between the tally and the machine count and document the resolutions using Manual Tally Incident forms. In accordance with the Post-Election Manual Tally Emergency Regulations, a "variance" means any difference between the machine tally and the manual tally for a contest, including, but not limited to, differences due to machine malfunction, operator error, or voter error in marking a ballot.

Upon completion of the manual tallies associated with ballots cast in San Francisco for the February 15, Consolidated Special Municipal Election, the Department found one incidence of a mismatch in votes counted for the recall measure regarding Allison Collins. A review of the ballots showed the cause to be a combination of a smudged erasure on one ballot card and a very faint vote mark on another ballot card. This occurred in batch number 225 of the VBM ballots. Due to the dark smudge on the ballot card under precinct 7106, the vote mark was picked up by the machine and resulted in an overvote. On another ballot for the same contest under precinct 9438, the marking was very faint that the machine did not pick it up which resulted in an undervote. Although, both ballot cards went through the adjudication process, the image shown to the adjudicators were a clear overvote and an undervote, respectively, that no changes were made on these votes. Overall, no variances between the manual tallies and the results reports caused by voting equipment malfunction were found.

The results of the 1% manual tallies confirm that the voting equipment used in the February 15 election accurately tabulated and reported votes cast for contests appearing on the official ballot.

Following are tables that summarizes the manual tallies.

Part I: Randomly Selected Precincts, Batches, and Contests Tallied for the 1% Manual Tallies

Randomly Selected Precincts/Batches and Contests Tallied for the 1% Manual Tally February 15, 2022 Election			
Initial five precincts selected for Precinct Ballots			
Order Drawn	Precinct	Ballot Type	Contests Tallied
1st	1153	2	All
2nd	9127	1	All
3rd	7508	2	All
4th	9443	1	All
Initial six batches selected for VBM Ballots			
Order Drawn	Batch (Box) #		Contests Tallied
1st	121	mixed	All
2nd	366	mixed	All
3rd	225	mixed	All
4th	092	mixed	All
5th	219	mixed	All
Initial batch selected for PV Ballots			
Order Drawn	Batch #		Contests Tallied
1st	01	mixed	All

Part II: Summary of Results of the 1% Manual Tallies

(Box) #		Discrepancies found?	Causes
01	All	No	NA

Part III: Comparison of Manual and Machine Tallies (for discrepancies only)

The following table details each discrepancy found during the 1% Manual Tally, including the precinct number or batch number (in the case of VBM and PV) for which the discrepancy was found, the type of ballot on which the discrepancy was found, the number of votes indicated by the voting equipment results report (machine tally), the number of votes counted by the manual tally, and the variance between the results report and manual tally. Each discrepancy is color-coded to show the identified cause of variance. For this Election there were two types of causes; the smudge and the faint vote mark.

Smudge and density
 Faint vote mark
 Vote mark off the arrow
 Misplaced ballot card/s

Comparison of Manual and Machine Tallies February 15, 2022 Election						
VBM Batch Number 225	Precinct Ballots			Vote-By-Mail Ballots		
Contest	Machine Tally	Manual Tally	Variance	Machine Tally	Manual Tally	Variance
<i>Recall Measure Regarding Alison Collins</i>						
YES				312	314	2*
NO				74	74	0
UNDERVOTES				9	8	-1
OVERVOTES				1	0	-1

* cause of variance is due to 2 types (smudge and faint vote marks)
